Outshade

Full Stack Developer Internship

About Outshade

Outshade is a premier web and mobile app development company, specializing in creating innovative solutions for clients across Asia, Europe, the Middle East, and North America. With a commitment to excellence and a focus on delivering cutting-edge technology, we help businesses thrive in the digital landscape through custom software development, responsive web design, and intuitive mobile applications.

Position Overview

Outshade is seeking a talented and enthusiastic Full Stack Developer Intern to join our dynamic team. This internship presents an exciting opportunity for individuals passionate about software development to gain hands-on experience and expand their skills in a collaborative and supportive environment. As a Full Stack Developer Intern, you will have the opportunity to work on diverse projects, from front-end interfaces to back-end systems, and contribute to the development of innovative solutions that drive client success.

Key Responsibilities

- Collaborate with cross-functional teams to understand project requirements and translate them into technical specifications.
- Develop responsive web applications with a focus on both front-end and back-end functionality.
- Design and implement user interfaces using modern web technologies such as HTML5, CSS3, and JavaScript frameworks (e.g., React, Angular, Vue.js, Express).
- Build and maintain server-side components and APIs using languages such as Node.js & PHP. The candidate should be good with REST API's and usage of Postman as well.
- Build and management database components using languages such as mySQL, PostgreSQL, MongoDB.
- Write clean, efficient, and maintainable code following industry best practices and coding standards.
- Conduct code reviews, debug issues, and troubleshoot technical problems to ensure the quality and performance of applications.
- Stay updated on emerging technologies and industry trends, and contribute innovative ideas to enhance development processes and solutions.

Requirements

- Pursuing or recently completed a degree in Computer Science, Software Engineering, or related field.
- Strong understanding of web development fundamentals, including HTML, CSS, JavaScript, and RESTful APIs.
- Familiarity with front-end frameworks such as React, Angular, or Vue.js, and back-end frameworks such as Node.js, Express, or Laravel.
- Proficiency in one or more programming languages, such as JavaScript, PHP.
- Experience with version control systems (e.g., Git) and agile development methodologies.
- Excellent problem-solving skills and a passion for learning and applying new technologies.

Hiring organization
Outshade Digital Media Pvt Ltd
